WALLACE:

A bemused Dr. June watches as Ari starts his imagination play. He flies Robin over to a flat rock several feet away and places Robin on it.

48 ARI (CONT'D) 48
Don't worry, Robin, you're going to
be ok. You're a tree high up in the
mountains...

Ari takes a few steps away and readies himself. We go into this imagination to see a **Robin**-tree perched on top of a mountain high in the sky.

3. KEY, CLEARING AT THE EDGE OF THE FOREST -- DAY

The kids arrive at a clearing beyond the edge of the forest. The clearing leads out onto a trail that winds up to the majestic Mount Mounain. Near them is a hollow tree stump.

14 KEY: Here we are! (looking around)

15 ELDER: Look, it's Mount Mounain.

16 OLIVER: Wow, it's so big. And it does look like the horns of a moose.

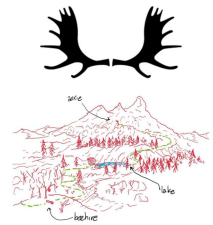

17 OLIVER: I wonder what it's like to go up to the top.

18 KEY: Hmm, she has suggested to meet us here...

19 All looks around and backs up close to the hollow tree stump. Suddenly, DR. JUNG (OFFSCREEN) goes up from the hollow tree stump.

18. EXT. MOUNTAIN LAKE COASTLINE SHORE -- A SHORT TIME LATER

Back at the lake shore, the group looks around. They hop on the ski boat once again and paddle out, looking around and in the water. Ari floats above, peering in all directions.

207 ARI 207
 Robin! Where are you?

216 CLIVE 209
 Over there! Look!

4. EXT. TRAIL TO MOOSE MOUNTAIN -- MONTAGE
We see the group make their way up the mountain in a montage, as the terrain becomes less familiar, and more mountainous. They zig-zag up trails, clamber over boulders, and keep an eye out to the skies. As they progress, we see Ari gradually gain cheer as he gets swept up by the adventure. We then crossfade to...

	3. BEST, PLAY WISHED AGAIN ACROSS THE TRAIL -- LARKIN	
	the group comes upon a small wooded area with some trees. Dr. Jones leaves the car and examines the tracks. He sets her backpack down, and begins talking out some directions.	72
72	Dr. Jones, you see, the deer movement.	
	Let's take a branch down. These	
	are good ones. --	
	BEST	
	Remember I'll take a branch out,	73
	across.	
	Dr. Jones takes out some sticks and passes them out. After a bit	
	of time, Jones is gone and LARKIN takes him, talking out her	
	directions. She comes to a dead end. LARKIN takes her away	
	around, then returns.

	And a few, not	

ext_upper_trail

1. EXT. UPPER TRAIL TO MOUNT KNOWLEDGE -- WINTER

On a snowy mountain, we see the upper trail that leads up to the summit. The snow is deep and white, and the trees are bare and dark. The sky is a pale blue, and the sun is low in the sky, casting a soft glow over the scene. The trail is a narrow path that winds through the trees and across the snow. In the distance, we can see the jagged peaks of Mount Knowledge.
